

March 15, 2016

Dear Sir or Madam:

Skyline Sunrooms is an integral part of C-Thru Sunrooms and an important member of C-Thru's nationwide family of Dealer Partners. The relationship between the two companies began over 20 years ago and continues today with Skyline being C-Thru Sunroom's exclusive Dealer Partner in the greater San Diego region.

Over the years, Skyline Sunrooms has gained the reputation of being the premier sunroom company in the San Diego area. Chris and Lori Copeland, and the entire Skyline team, consistently provide excellent service, support and results to their customers. Skyline's pursuit of excellence also influences the relationships with their suppliers like C-Thru Sunrooms. They demand quality products, exceptional service and strong warranties from their suppliers to ensure Skyline is providing the highest quality product at an exceptional value to their customers.

As a manufacturer with national distribution, we provide product to 100's of contractors. Occasionally we receive calls from homeowners when they are unhappy with service they are receiving from the contractor. Unfortunately, I have heard some real horror stories. However, despite over 20 years of doing business with Skyline Sunrooms, we have never received a call of concern from any of Skyline's customers. I cannot say that about any other dealer in our network that we have had a relationship with for that long. In fact, I have heard more positive feedback from homeowners about Skyline and their experience with the company than any other dealer in our network. From a supplier's standpoint, Skyline is a dream partner. A partner that provides a quality product, incredible customer service and exceptional installations to create happy customers that rave about their positive experience!

The partnership between Skyline Sunrooms and C-Thru goes far beyond the purchasing of product. Chris Copeland and the Skyline installation team have been instrumental in helping C-Thru develop new products over the years. In fact, Chris Copeland is a member of C-Thru's design and engineering committee, helping to provide important feedback about our products. Chris was selected for this committee due to his reputation for design and exceptional installation work.

C-Thru is proud to have formed such a strong and long lasting relationship with Skyline Sunrooms. It is an honor to call Skyline Sunrooms, one of the premier sunrooms contractors in the nation, our partner in the San Diego area!

Sincerely,

Mike Leigh
General Manager
C-Thru Sunrooms
